A B O U T

I have recently finished a Diploma of Information Technology through an intensive Bootcamp at Coder Academy in Brisbane. I have worked in academia as a researcher, in Environmental Consultancy and Customer Service over the past 10 years, however, I have developed a passion for computers since the first time I connected to internet through a Dial Up modem. You can see more about my soft skills, programming languages I speak and the tech-stack I use in my GitHub , LinkedIn and my website.
